

**November Program**

Saturday, November 12, 2022

10:00 am – 12:00 noon

Southglenn Library

6972 S Vine St, Centennial, CO 80122

Please join us November 12<sup>th</sup> for an engaging program and conversation on cyber security. Our presenter, Teresa Gehrke, is the founder of [PopCykol](http://PopCykol.com). An emerging cyber security awareness company, PopCykol stands for **Protecting Our Precious Curious Kids Online**.

Teresa will present information about online safety and privacy. Topics discussed include passwords, multi-factor authentication, phishing, and resolving email hacks. These "PopCykol Tips" will provide useful guidance and tactics to safeguard your identity and data online in an easy manner.

Teresa earned a master's degree in anthropology and international development from Colorado State University and studied network security at Arapahoe Community College (ACC). She has worked in cyber security since 2014 as a technical writer and customer experience consultant. Teresa uses her anthropology education to understand how human behavior interacts with technology and how it impacts security awareness and education.

She facilitates learning while integrating her creative skills, as an award-winning kids' music singer-songwriter, bringing to life PopCykol's penguin mascots. The penguins teach families how to improve their online security and privacy. [PopCykol](http://PopCykol.com) provides engaging edutainment with positive reinforcement through its online school. Teresa has taught cyber security classes for youth at ACC as a part-time instructor. She was recently nominated for *Cybersecurity Woman of the Year* by United Cybersecurity Alliance. Learn more about PopCykol's courses, events, and how to book engagements by visiting [www.popcykol.com](http://www.popcykol.com).
